CAREER OBJECTIVE

Final-Year Computer Engineering student aspiring to build a career as an Application Developer with hands-on experience developing full-stack and AI-powered applications. Skilled in React.js, Node.js, Express.js, Java, JavaScript, MongoDB, MySQL, REST APIs, and cloud deployment. Strong foundation in software engineering, Data Structures & Algorithms, OOP, DBMS, API integration, and AI-assisted development. Passionate about building scalable, efficient, and user-centric enterprise applications.

TECHNICAL SKILLS

Programming Languages - Java, JavaScript, Python, PHP, SQL, HTML5, CSS3
Frontend Development - React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design
Backend Development - Node.js, Express.js, PHP, REST APIs, PHPMailer
Database Development - MongoDB, MySQL, SQL/NoSQL, CRUD Operations
AI & Intelligent Applications - Generative AI, Gemini API, Prompt Engineering, AI-based Question Generation, AI-Assisted Development
Cloud & Deployment - AWS, Railway, MongoDB Atlas, Netlify, Cloud Fundamentals **Software Engineering** - Authentication & Authorization, JWT, API Integration, Role-Based Access Control, Microservices Concepts **AI-Assisted Development Tools** - ChatGPT, GitHub Copilot, Cursor
Tools & Platforms - Git, GitHub, VS Code, Postman, Figma **Core Concepts** - Data Structures & Algorithms, OOP, DBMS, Software Engineering

EDUCATION

Bachelor of Technology – Computer Engineering — *CGPA: **7.35***
Sanjivani College of Engineering, Kopargaon — 2023 – Present

Higher Secondary Certificate (HSC) — *First Class*
Bapuji Sahadu Kadu Patil College, Satral — 2023

Secondary School Certificate (SSC) — *D* istinction
Pravara Madhyamik Vidyalaya, Zarekathi — 2021

PROJECTS

AI-Powered Interview Platform
React.js | Node.js | Express.js | Gemini API | JavaScript | REST APIs

- Developed an AI-powered interview platform that analyzes candidate resumes and generates personalized interview questions based on skills, projects, and technical experience.
- Integrated Gemini API for resume-based question generation, prompt engineering, and intelligent interview workflows.
- Implemented separate interview sections including resume/project, technical, HR, aptitude, and coding assessments.
- Integrated browser-based speech recognition to support interactive voice-based interview experiences and connected frontend components with backend REST APIs.

Corporate Business Website – Balvirt IT Solution
HTML | CSS | JavaScript | PHP | PHPMailer | CSV

- Developed and deployed a responsive corporate web application accessible globally, serving **2,300+ verified visitors**.
- Built automated email workflows for service inquiries and career applications using PHPMailer, including resume submission and HR notifications.
- Implemented CSV-based application record storage with timestamps and optimized the application for responsive cross-device usage.
- **Live:** https://balvirt.com

Enterprise Team Task & Attendance Management System
React.js | Node.js | Express.js | MongoDB | JWT | Tailwind CSS

- Built a centralized SaaS application for project management, task tracking, attendance, and leave management with Admin, Guide, and Member role-based dashboards.
- Implemented secure JWT authentication, bcrypt password hashing, role-based authorization, and multi-level leave approval workflows.
- Developed REST APIs and analytics modules for attendance tracking, task progress monitoring, project requirements, and performance evaluation.
- Deployed the application on Railway with MongoDB Atlas for a production-oriented cloud environment.

CERTIFICATIONS

- Full Stack Development – L&T EduTech, Udemy
- DADB German Academy – Internet of Things
- NPTEL – E-Business, Employment Communication, English for Thesis
- AWS Academy – Cloud Fundamentals and AWS Services
